## Two-stage belt driven tandem compressor that guarantees very high performance.

Two-stage three-phase Tandem belt driven compressor suitable for high performance by professionals due to higher air intake and higher volumetric efficiency. It is equipped with two highly efficient 4 hp pumping units with cast iron cylinders with large manifolds and finned tubes for better air cooling and robust metal belt covers protecting moving parts. The 500-litre tank for a large air reserve with four sturdy support feet with vibration dampers make it stable in use.
